ABORTION OPTIONS

British Columbia Specific Information

Abortions are available in B.C. and, for B.C. residents who have current coverage, are paid for by the Medical Services Plan. Several clinics, doctors, and hospitals throughout the province offer these services. Counselling about pregnancy options, the procedure itself, birth control, and other topics are available at most of the clinics and through either of these toll-free information lines:

> **Pregnancy Options Line: 1-888-875-3163 throughout B.C. or 604-875-3163 from the Lower Mainland.** This service provides information, resources and referral for all abortion services, including counselling, available to B.C. residents.
> **Sex Sense Line: 1-800-SEX-SENSE (1-800-739-7367) throughout B.C. or 604-731-7803 from the Lower Mainland.** This service offers general sexual and reproductive health information, as well as referral to resources throughout B.C.

Women may self-refer to any of the abortion clinics in B.C. or may call the Pregnancy Options Line for referral to a doctor in their area. For more information, talk to your health care provider or call one of the numbers above to discuss your individual circumstances and options.

For more information, please visit Options for Sexual Health and BC Women's Hospital & Health Centre.

BC WOMEN'S HOSPITAL+ HEALTH CENTRE

Abortion & Contraception

The CARE program provides services for women who are experiencing an unintended pregnancy, or who require an abortion for genetic or medical reasons.

Abortion

We provide surgical abortions up to the 24th week of pregnancy through the BC Women's Abortion Clinic (CARE Program). For more information, or to book an appointment, please contact us.

The CARE Program provides surgical abortions using conscious (awake) sedation and local anesthesia for managing pain. Your clinic visit may take up to four hours. BC Women's does not provide medical abortions.

Information on: types of abortions, preparing for your appointment and aftercare.

1. Counselling Services at CARE

All of our appointments begin with a session with on of our counsellors. During this session, you will be provided with all the information you may need to help you make a decision. The counsellor will explain the procedure and how to take care of yourself afterwards. Our counsellor will review the consent form with you and answer any questions you may have before you sign it.

Please note, in order to maintain social distancing during the COVID-19 restrictions, we are providing an option to have your counselling session by phone or by virtual health the day before your appointment. This will be arranged at the time of your appointment booking.

Attached are some links to sheet that we may be reviewing with you at the time of counselling:

- Intrauterine Device (IUD)
- Combined Birth Control Pills
- Contraceptive Patch
- Vaginal Ring
- Depo-Provera - Birth Control Shot

Counselling is also available is available to patients after their abortion or pregnancy loss.

2. Pregnancy Options Service (POS)

Pregnancy Options Services (POS) is a province-wide toll-free confidential counselling, information and referral service.

We serve women who are pregnant and want confidential, unbiased, non-judgemental decision making and crisis counselling. We provides information about abortion, adoption, and parenting resources.
